

Journal of Electronic Imaging (JEI)

2012 Library/Institution Subscription Information and Rates

Published by: Society for Imaging Science and Technology (IS&T) and SPIE

Editor: Guarav Sharma, University of Rochester
Managing Editor: Karolyn Labes, SPIE

Subscription Info: see IS&T contact information above; Attn: JEI Library Subscriptions
via e-mail: subscriptions@imaging.org

Manuscript Submission: Karolyn Labes, Managing Editor
SPIE
1000 20th Street
Bellingham, WA 98225
360/676-3290; 360/647-1445 fax
journals@spie.org; www.spie.org

2012: Volume No. 21 Issues per year: 4 Frequency: Quarterly
Months of Publication: Jan., April, July, Oct. ISSN: 1017-9909

Journal articles are now published online, “e-first,” as they are approved for publication. Each journal issue becomes a dynamic publication with new articles added regularly until the issue closes and the next issue is open for new papers. JEI is printed the month following the completion of the online issue.

2012 Library and Institution Rates* (in US Dollars, advance payment required)

	US Address	Non-US Address
Print* + online (single site license)**	\$510	\$550
Online only (single site license)**	\$395	\$395
Online only (corp. multiple site license)***	\$1185	\$1185
Additional for print copies	\$115	\$155

* Includes normal shipping; Air Mail Delivery Charge is \$20 per year.

** Requires signed subscriber agreement, which may be downloaded from www.imaging.org/ist/publications/jei.cfm

*** Requires single order and setup as a single corporate account.

Notes: Subscriptions are for volume year: January – October
Printed on acid-free paper. Advertising accepted. Rental use of mailing list: Limited.
Rates also apply to non- IS&T or SPIE member individual subscriptions.
JEI has an agreement with Portico to archive backfile content.

Description: *The Journal of Electronic Imaging* publishes papers in all technology areas that make up the field of electronic imaging and are normally considered in the design, engineering, and applications of an electronic imaging system. The following research areas, as they apply directly to electronic imaging or focus on applied electronic imaging technology, are covered: image acquisition, image data storage, image data communication, display of image data, hard copy output, image visualization, image processing, and electronic imaging applications. This journal is peer-reviewed.

Intended Readership: Professional scientists, engineers, technicians, technical managers, and others working in imaging research and development or product management.
