## ***Journal of Imaging Science and Technology (JIST)***

### **2012 Library Subscription Information and Rates**

<b>Published by:</b>	Society for Imaging Science and Technology (IS&T)
<b>Editor:</b>	George T.-C. Chui, Purdue University
<b>Production Manager:</b>	Donna K. Smith
<b>Subscription Information:</b>	at address or phone above or via e-mail: <a href="mailto:subscriptions@imaging.org">subscriptions@imaging.org</a>
<b>Manuscript Submissions:</b>	at address or phone above, Attn: Donna K. Smith or via e-mail: <a href="mailto:jist@imaging.org">jist@imaging.org</a>
<b>2012:</b>	Volume No. 56
<b>ISSN:</b>	1062-3701
<b>Number issues per year:</b>	6
<b>Frequency:</b>	Bimonthly
<b>Months of Publication:</b>	Feb., April, June, Aug., Oct., Dec.
<b>Abstracted and/or Indexed:</b>	INSPEC, Chemical Abstracts, Imaging Abstracts, COMPENDEX, and ISI: Science Citation Index

#### **2012 Library and Institution Rates\*** (in US Dollars, advance payment required)

	<b>US Address</b>	<b>Non-US Address</b>
Hardcopy only*	\$295	\$325
Online only (single license)**	\$385	\$385
Hardcopy and online**	\$560	\$595
Online only (corp. multi-site license)***	\$1,165	\$1,165
Hardcopy add-on	\$165	\$200

\* Includes normal shipping; Special handling deliveries not available. Prices reflect a average increase of 4% over 2010 rates.

\*\* Requires signed subscriber agreement, which may be downloaded from [www.imaging.org/ist/publications/jist/index.cfm](http://www.imaging.org/ist/publications/jist/index.cfm)

\*\*\* Requires setup as a single corporate account, single order, and single shipment (for hardcopy add-ons).

**Notes:** Subscriptions are for volume year: January – December  
Advertising accepted; rate card available upon request.  
Rates are for institutions, corporations, and non-member individuals.  
JIST has an agreement in place with Portico to archive backfile content.

**Description:** *The Journal of Imaging Science and Technology (JIST)* publishes peer-reviewed papers that cover the broad range of research, development, and applications related to all aspects of imaging science and technology, including the following research areas: color imaging, chemistry of photosensitive materials, physics and chemistry of silver halides, photographic emulsions, digital printing technologies, chemical and spectral sensitization, prepress and production printing technologies, remote sensing, coating technologies, photopolymers, materials for electrophotography, photoconductors, latent image formation, holography, image analysis and interpretation, and image permanence. JIST is multi-disciplinary in that it promotes communication and understanding across the boundaries of the many disciplines involved in modern imaging.

**Intended Readership:** Professional scientists, engineers, technicians, technical managers, product managers, and others working in imaging research and development and/or management.
