

Stereoscopic Displays and Applications XXIX

The World's Premier Conference for 3D Innovation

FOR IMMEDIATE RELEASE:

Burlingame, California

Light fields, VR, and Stereoscopic Perception: SD&A 2018 Conference Videos Available Now for Free Viewing on YouTube

(July 4, 2018) Now available for free viewing on YouTube, 24 oral presentations from the 2018 Stereoscopic Displays & Applications (SD&A) Conference cover: advanced light field and holographic displays, stereoscopic perception, 3D applications including biochemistry, and VR capture and display. The SD&A conference, home for numerous announcements of key technical advances in 3D acquisition, display, perception, and applications, is entering its 30th year and is a part of the annual Electronic Imaging symposium hosted by IS&T – the Society for Imaging Science and Technology.

The SD&A conference is unique in its combination of: face-to-face networking – for commercial, government, academic, and consumer stakeholders, oral and poster-based scientific and engineering presentations, and its customary annual banquet and very popular stereoscopic theater screening session. The conference Chairs and Committee welcome newcomers to the field and its alumni year after year.

Enjoy the technical presentations at this YouTube playlist: <http://bit.ly/SDnA2018videos>

Refer to the 2018 SD&A conference program here: <http://stereoscopic.org/2018/program.html>

Coming soon: manuscripts will be available free of charge thanks to IS&T and our SD&A conference sponsors at: <http://www.ingentaconnect.com/content/ist/ei>

Abstracts are currently being sought for the big 30th annual SD&A conference being held in January 2019: http://www.imaging.org/site/IST/IST/Conferences/EI/EI_2019/Conference/C_SDA.aspx

About SD&A

The annual Stereoscopic Displays & Applications (SD&A) conference is the world's premier conference for 3D innovation. It is the largest and longest-running technical conference dedicated to the discussion of stereoscopic 3D imaging topics. The next conference will run January 13 – 17, 2019, near San Francisco.

The SD&A conference is part of the International Symposium on Electronic Imaging organized by the technical society IS&T. The SD&A conference program includes a range of exciting and useful special sessions, as well as research-based oral and poster presentations dedicated to stereoscopic imaging topics. Special sessions include keynote presentations and live demonstrations of stereoscopic displays and applications.

Further information about the SD&A conference is available at: <http://www.stereoscopic.org>
Information about the Electronic Imaging Symposium is at: <http://www.electronicimaging.org>
